Fawn fabric

Inside Out Performance Fabrics® is an all-in-one-performance fabric that marries both style and function. Made with stain-resistant and fluorine-free technology, these fabrics are durable enough for indoor use, easy to clean, and able to withstand the elements when used both inside and outside. Rustic and refined, the Sierra collection featuring Inside Out Performance Fabrics brings a modern spirit of classic wovens to the rural retreat. Lush chenilles, nubby wool and linen textile effects create a charming collection balanced with debonair design, adding a new level of sophisticated comfort and luxury to getaway environments, from lakeside lodges to mountain chalets. Thibaut's Inside Out Performance Fabrics are ideal for family-friendly living. All patterns meet standards for Heavy Duty upholstery and exceed 50,000 rubs.
