WINDOW FABRICS

WINDOW FABRICS WITH THE TRUSTED PERFORMANCE OF SUNBRELLA®

Sunbrella window fabrics collection is designed for beauty, texture, and the way it filters light. Window treatment fabrics offer Sunbrella's signature combination of aesthetics and performance. They are specially finished to feel soft and are designed to be long-lasting, fade resistant and easy to maintain. The Mild XL range offers a textured grain for a warm, light-filtering atmosphere.

SUNBRELLA®

A BRAND THAT CARES ABOUT THE ENVIRONMENT

From production to use, Sunbrella fabrics combine quality with durability to reduce their impact on the environment.

PRODUCT LIFECYCLE MANAGEMENT

As part of its Sunbrella ReCycled offer, Sunbrella created the Endless Stories collection containing up to 50% recycled solution-dyed acrylic fibres. Our recycled fibres are sourced directly from production plants where waste is divided into colour groups and turned back into fibres. These fibres are then blended with the "virgin" Sunbrella fibres.

LESS WASTE

Our quality Sunbrella fabrics do not rot or fade and are highly resistant over time. As our fabrics do not need to be replaced as often as traditional fabrics, they generate less waste.

LOW WATER CONSUMPTION

In the solution-dyeing process, colour pigments are added to the core of the fibre, to guarantee colourfastness and save water. Throughout our manufacturing process, we take steps to reduce the amount of water we use, notably by recycling washing water through the installation of water treatment plants.

ZERO LANDFILL

For over 30 years, Sunbrella has recycled its industrial waste such as yarn and packaging. Today, every Sunbrella manufacturing facility around the globe sends absolutely no waste to the landfill.

5 YEAR WARRANTY

Sunbrella acrylic fabrics carry a 5-year limited warranty for indoor and outdoor applications against abrasion, pilling, loss of colour and strength in normal usage and exposure conditions. See general warranty conditions at sunbrella.eu/warranty

NON PFAS

Our company has invested significant resources to find alternatives to PFAS (perfluoroalkylate) chemicals and has developed an optimal non-PFAS finish for all Sunbrella upholstery fabrics. Our fabrics will retain their water repellency, durability, bright colours, appearance, softness, texture, ease of cleaning and strength.

REACH REGULATION

Sunbrella has developed treatments designed and applied in strict compliance with European REACH regulations.

REACH is a European regulation designed to improve the protection of human health and the environment from the risks posed by chemicals, while enhancing the competitiveness of the EU chemicals industry.

GREENGUARD CERTIFIED

Sunbrella upholstery fabric has achieved GREENGUARD GOLD Certification. Sunbrella upholstery fabrics are certified by GREENGUARD as contributing to healthy indoor air by being a very low emitting interior product.

OEKO-TEX LABEL

A quality that meets human-ecological requirements. Awarded with the OEKO-TEX label (class II - products with direct contact to the skin), Sunbrella fabrics are produced without hazardous substances and do not pose a threat to health, the skin or the environment.
